### Welcome to ECAA's E-Newsletter, The Spark!

This newsletter was created to keep members informed on the Association's activities and upcoming events in a timely manner.

### President's Message

Welcome to ECAA's 2nd edition of "The Spark". Last week I attended a meeting with the Workers Compensation Board of Alberta (WCB), who want to present a new proposal to the Electrical Contractors in Alberta called Industry Custom Pricing. WCB came up with this strategy after consultation with industry stakeholders on experience ratings in 2007-2008. This will affect your WCB rates. **NOTE:** *There will not be any changes to the current system that WCB is using without firstly being voted on by you the Electrical Contractors in this province.* So if you are an Electrical Contractor in Alberta make sure your company is represented at one of the two meetings mentioned below to hear what this proposal is all about. This is just another way to stay informed of the happenings within our industry.

Bob Maslanko, PEC
