DECEMBER/2013

Welcome to ECAA's E-Newsletter, The Spark!

This e-newsletter was created to keep members informed on the Association's activities and upcoming events in a timely manner.

President's Message

Ho Ho Ho everyone what's on your Christmas list this year??? Hope you've been good girls and boys, I know I have..... maybe, but I will only find out on Christmas day -- my wish for 2014 is no slice and 250 yards off the tee!!!

I would like to start off by thanking Sheri, Dorothy, Christine and Camille at our main office for their hard work, keeping the gears of the ECAA running smoothly. The Board of Directors are at the top of their game working together towards a better association. Special thanks to our board members and their families for giving up personal time for the betterment of the electrical industry.

Les Dzwonkiewicz,
PEC

Our membership since June of this year has grown by 18 new members, representing over 900 employees. Great job Steve, our membership chair. The main office is open to all our members. You have an open invitation to come and sit in at any of our board meetings, just please phone ahead and make arrangements with Sheri. The lunch is included as well as free coffee -- please bring your ideas.

The Canadian Electrical Contractors Association had a board of Directors meeting on October 12th in Washington, DC. CECA has agreed to a strategic planning session to develop strategies and measurement vehicles going forward. It was agreed that a 2 day session is required. The next meeting will be by teleconference on January 22, 2014.

The board meeting on December 5th went very well with all our board members looking their best for the pictures taken. Chris, the camera man from Stambaugh Photographics, always does a great job, very pro. We revived our budget and it is looking in great shape for this year. Thank goodness we are not seeing red :). Eric Fadden and Jeanette DeBruin are drafting a welcome statement for new members. The ECAA will be a contributing GOLD sponsor to the Safety Codes Council's June convention. We look forward to attending and networking with

fellow stakeholder's in the electrical industry. Thank you to the board members for your reports finishing off a super 2013, just an awesome job.

The Christmas Open House was once again very well attended this year with fellow members and guests wishing each other good cheer and a profitable new year in business ... and with life in general.

Please check the ECAA web site for upcoming seminars, meetings and news pertaining to our association.

I wish everyone a Merry Christmas and a Happy New year.

Oh one more thing, my fortune cookie from the open house night reads, **IT'S ALL RIGHT TO HAVE BUTTERFLIES IN YOUR STOMACH... JUST GET THEM TO FLY IN FORMATION.**

Your President,
Les Dzwonkiewicz PEC

The following information obtained from Alberta Construction Association website:
2014 WCB Rates Announced: Alberta's employers will see their premiums drop by more than 8 per cent on average in 2014. The average industry premium rate is \$1.03, continuing to be the lowest average rate in Canada. Construction industry rates vary by rate group. [Find out more.](#)

Employer Review - Level 2. Input Requested by December 12th. OHS Partnerships is seeking input from stakeholders on the question of developing some new methods to deal with Certificate of Recognition (COR) holders who have been through the Employer Review process two or more times, but where their health and safety performance is not improving over time. They will measure performance using the new Employer Scorecard which considers Disabling Injury Rate, Loss Time Claim Rate, Days Lost Frequency Rate and the occurrence of fatalities over multiple years.

Currently, when reportable incidents occur, to COR holders, Partnerships conducts a review of the incident with and determines whether the employer may have significant deficiencies in their health and safety management systems. When deficiencies are identified, a meeting is held with the employer and an action plan with deliverables and completion dates is developed. As this process occurs each time a reportable incident occurs with a COR holder, some employers have been through the action plan process several times. While most employers show some dramatic improvement following completion of their action plans, not all improve and some continue to have more incidents. There are not many COR holders in this situation, but they are aware of some, and they will be in better position to identify others once the data from 2013 from the WCB becomes available. The idea is for Partnerships to develop a "toolbox" of approaches that we could use to assist these COR holders.

ACA's Safety / WCB Committee met with Partnerships November 28. [Click here](#) to see the OHS presentation from the 28.

As per the preceding paragraph, OHS is seeking industry input on additional measures to address those few employers who continue to trigger reviews (OHS ideas are covered in bottom slide on page 10 of the attached document) . One idea raised yesterday from industry was that these employers be subject to more frequent and random external audits as part of their action plan. The regular audit cycle would come into play once OHS was satisfied that the problems had been rectified.

Merit Contractors has sadly announced the sudden passing of Bill Stewart, Merit's Vice President in Edmonton. Bill was a dedicated leader at Merit and his presence will be greatly missed by everyone. Within Merit he was known for his kindness, his willingness to lend a hand and his ability to bring people together. Bill built many relationships with those of us in the industry, all across Canada and the

United States, and he is remembered for his passion, his knowledge, his dedication, and his integrity. We will miss our colleague, and more important, our good friend, Bill Stewart. Donations in Bill's memory may be made to the Hope Mission, PO Box 953, Edmonton, AB, T5J 2L8. To send condolences please visit www.connelly-mckinley.com
