

Electrical Contractors Association of Alberta

ELECTRICAL SAFETY TRAINING SYSTEM (ESTS)

INTRODUCTION

ESTS, Electrical Safety Training System is now available for immediate online access. ESTS is a new comprehensive workplace electrical safety training system that is targeted towards electrical workers, and focuses on electrical hazard management as well as industry consensus based standards in the workplace. ESTS is designed for the individual worker and is offered as an e-learning online course. It is designed to guide the user through fundamentals of electric shock, including touch and step potentials. The course is self-paced and can be done in one sitting (average 4 hours) or by module as time permits. The program promotes a "plan, do, check, act" philosophy in applying **CSA Z462, 1000 Occupational Health and Safety Management System Standard**. Login information will be emailed to each participant or employer. Please print clearly as certificates and wallet cards will be issued upon completion. <http://ecaests.acsaonline.org>
